### Herbaceous perennials

|   | Flower colour     | Height                   | Flowering time        | Position                |                           | Pot size, price  |
|---|-------------------|--------------------------|-----------------------|-------------------------|---------------------------|------------------|
| <i>Most herbaceous perennials die back in the winter meaning they lose their foliage and will reappear in Spring. We'll have a full list again from March 2024. Our herbaceous perennials are grown outdoors or in unheated polytunnels to maintain natural hardy growing habits.</i> |                   |                          |                       |                         |                           |                  |

Pea 'Oasis' 9 cm pot 50p each

**Shrubs, hostas and hardy ferns**

Shrubs may take many years to mature and reach final height. Pruning can be used to keep them at a smaller, desired height.
